Subject: Please

To the DOJ.

On behalf of Accudry Moisture Measurement:
accudry.org
accudry.net

Please do not allow monopolies as entrepreneurs such as myself are disabled by allowing one company to control 90% of the world market.

One big bee can make a lot of honey.....if it so wishes and when it wishes,
but what we rather want is a hive of honey-makers for stability.
Each bee presents a different flavor but in the end it is shared.

Please enforce competition and make the playing field fair.
Entrepreneurs cannot continue the American dream under a monopoly.
If Microsoft is allowed to succeed with their current strategy, then many will follow the example.
